

Shapes Reference Table

This page was adapted from the Texttools Reference doc by Sel. This information has not been updated or re-researched since pre-dawntrail, so some information may be missing or outdated.

It is assumed that a shape can be created for any otherwise unlisted attribute and will be triggered if the attribute associated with it is hidden, however this has not yet been tested.

Shape Name	Trigger Conditions	Notes
------------	--------------------	-------

Body Gear (top)		
shp_nek	atr_nek Hidden	Hide conditions dependent upon head gear.
shp_kat	Long-Glove Equipped	Only one of these will be triggered at once, the others will have their associated attribute hidden.
