

# Introduction

Hi, I'm Khara! I am an affiliate of the Bimbo Boudoir and I have been in love with vanilla upscaling since before I was even introduced to the Bimbo body. You have likely seen my vanilla upscales floating around on XMA.

I wanted to write a text based guide to accompany video notes for those of us who don't do so well focusing on LONG videos. I have tried my best to make this accessible for people and included Blender shortcuts used so that you can follow along. Unfortunately, some parts of upscaling are easiest to show rather than tell. When that's the case, I've included videos that include me chatting at you to show you everything I'm doing for that piece of the 'upscaling journey'.

I am a self-taught Blender user, so this is definitely not a 'professional' method. I am very sorry for any professionals who read/view this and cringe into next century. I learned from YouTube.

I hope this guide helps other self-taught users complete works they're happy with. If you have any questions, please poke me in the Bimbo Boudoir, or in my own personal server, The Sun Rock.
